Dear Ms. Hannia Tariq
Executive Director
High Altitude Sustainability Pakistan (HASP)
Islamabad

With reference to your email dated May 09, 2017, progress report and subsequent discussion of Mr. Zahid Rajpoot on the subject cited above.

In this regard the Directorate of Central Karakoram National Park Gilgit-Baltsiatn Skardu extends its gratitude for carrying out **WASTE CLEANUP CAMPAIGNS** at Baltoro area of CKNP by High Altitude Sustainability Pakistan (HASP) in 2016, in collaboration with Khurpa Care Pakistan (KCP) under the project "**SUSTAIN BALTORO- 2016**".

SUSTAIN BALTORO PROJECT is a tremendous effort of HASP to support better waste management in the largest protected area of Pakistan. It has been project's support that mad possible for HASP and KCP to collect 6697 kg of waste; mostly animal carcasses, disposed off and transported to the specified destinations.

We look forward for your more collaboration and generous support in such a noble cause in order to keep the CKNP Clean and would like you to focus Paju, Khoburtsay, K2, Broad Peak and G-II Base Camps.

Best regards,

Yasir Abbas
Ecologist
